### **CITRUS MEMORIAL BREAKS GROUND ON NEW MEDICAL FACILITY**

Citrus Memorial Health System recently broke ground on **Citrus Memorial Healthcare Center at Sugarmill Woods**, a 21,400 square foot facility for residents of Southwestern Citrus County. The facility is currently under construction on a 5 acre tract of land just north of the main entrance of Sugarmill Woods on US19.

Once complete, Citrus Memorial Healthcare Center at Sugarmill Woods will provide state-of-the-art diagnostic imaging services including x-ray, ultrasound, digital mammography, bone density, mobile CT scan and MRI. Additionally, rehabilitation services such as physical and aquatic therapy will be available along with a walk-in clinic, laboratory draw station, blood bank and pre-admission testing for patients undergoing outpatient surgery at Citrus Memorial. The offices of Tim Peterson, MD and Carolyn Bautista, ARNP are currently located at the location and will be integrated into the expanded medical services facility upon completion next fall.

Many members of the Homosassa community, along with Citrus Memorial employees and members of the Citrus Memorial Health Foundation Board of Directors were in attendance for the landmark ceremony. President and CEO Ryan Beaty welcomed the crowd and expressed that Citrus Memorial was supporting its mission of “improving the health and quality of life of the people and communities we serve” by expanding into Southwestern Citrus County, an area in critical need of nearby advanced medical services.

Before plunging their gold and green shovels into the soft dirt, Board member Sandra Chadwick thanked those in attendance claiming that “while we are just breaking ground, today is far from the beginning of this project. We are all part of an amazing history of caring for Citrus Memorial.”
